Drawing inspiration from extensive travelling can offer excellent outdoor spaces to add value and space. This is the stone courtyard of the Esbalaud Museu d'art modern in Palma.

Sealant for exterior paving is especially important in cooking areas to prevent the natural materials from staining heavily. **Builder Superstore** supply tile sealant and treatment to protect and complete the look. The natural stone flooring can be teamed with a perimeter of limestone chippings that reflect light to make installing quicker and cheaper.

Black or white marble is very recherché. (See our natural stone tile section). Monotones are very contemporary and make a striking change from stone shades.

Raise the outdoor room slightly higher than the rest of the garden to prevent it looking like a patio. Include a feature design such as a natural stone octagonal or sun circle as a focal point.

Builder Superstore offer interior floor tiles and exterior paving at trade prices with next day timed delivery and bulk discounts.
