Industry: [Transportation & Logistics](#)

LIMA, PA February 9, 2009 - **Pilot Freight Services**, a worldwide provider of transportation and logistics services, has signed a multi-year contract with **Catapult International** for its international ocean rate management system called **Catapult QMS™**.

**Catapult** will consolidate all of **Pilot's** ocean contracts into an easy-to-use website where employees and customers will be able to sort rates by an origin/destination combination. Rates and surcharges are managed by **Catapult's** maritime analysts.

*"Catapult's technology will drastically reduce our quoting time by providing an instant rate web interface for our offices" notes **Irina Friedel, Ocean Transportation Manager at Pilot.** "Our customers*

*will benefit in getting accurate quotes quicker because of Catapult QMS™."*

**Bryan Luttrell, COO of Catapult International** said: *"We are extremely excited to have Pilot Freight Services as a customer. It is a perfect fit for both sides."*

**About Pilot:** Pilot Freight Services is a full service transportation and logistics company with 65 offices throughout the US and Canada as well as a worldwide network delivering shipments by air, land, or sea anywhere in the world.

**About Catapult:** As one of the fastest growing logistics software companies, Catapult provides rate and quote management systems for global corporations as well as customized applications for air, ocean, and ground freight shipping networks worldwide.
