Specialized mobile call and text provider **Webtel.mobi**, which provides a mobile calling and texting services at up to 80% below standard rates, is preparing its network to manage the expected surge of texts sent on Valentine's Day. It's also providing new users with free text credit for up to two Valentine's Day texts.

Typically, Valentine's Day sees international texting volumes spike by hundreds of percent internationally. In the United States, Valentine's Day sees texting daily texting volumes rise to over 2.2 Billion.

According to a **Webtel.mobis** spokesman, their low cost calling and texting service experienced a 1000%+ spike on New Year's day 2009, as consumers took advantage of their Ultra-Low cost texting service – whereby texts can be sent locally or internationally for between 4 cents to 9 cents per 160 character text message.

Once again, they are expecting a similar surge on Valentine's day, and are putting procedures in place to make sure that they system can effectively cope with this surge in all countries internationally.

Webtel.mobi's system is available to all web-enabled mobile phones internationally, in all countries and on all networks. It is free

to join, and no contract is required.

To use **webtel.mobi**, consumers just have to go to the **Webtel.mobi** site at <http://www.webtel.mobi> from their mobile phone (or their desktop) and join. They can then load credit onto their accounts via PayPal, and begin calling or texting immediately.

Webtel.mobi also has a desktop Help and FAQ site at <http://www.webtel.mobi/pc> where consumers can get information on the Webtel.mobi service and its Rates.

Webtel.mobi has also uploaded a video explaining its service to YouTube, at <http://www.youtube.com/watch?v=CiheLVVE5qw>

Webtel.mobi's spokesman confirmed that persons who join the service prior to Valentine's Day will be able to take advantage of the Webtel.mobi Valentine's Day Special – whereby people who have joined up prior to 14 February will be provided with Free Texting Credit on Valentine's Day, which will allow them to send up to two texts anywhere in the world for free.
