AvaHost has just launched VPS hosting, virtual private servers which offer a fantastic alternative to shared hosting, with pricing as low as 14.95 per month. This allows clients to enjoy the benefits of having control over hosting, right down to full root access.

AvaHost is a shared and reseller hosting service which has now expanded to offer a brand new product, VPS (Virtual Private Server) hosting. As many users are looking low cost alternatives to shared hosting, this new product offers four different levels of hosting to meet user's particular needs.

Users may choose from the four tiers which begin at 256MB of Mb to 1024 Mb. Guaranteed RAM will range from 128 MB to 512 MB. Offered disk space will begin at 10 GB going up to 40 GB and data transfer will start at 300 GB and go up to 1200 GB.

All four tiers offer users full SSH root access, unlimited domain, development tools, the ability to install your own software, free DNS hosting, dedicated IPs, the capability to have your own DSN servers, reload and reimage OS, boot, shutdown and reboot commands, and to install can compile custom software. This new product also offers custom MIME settings, website access statistics, support for .htaccess,

Cron job support, sendmail support, customizable error pages and access to both raw logs and error logs.

The goal of AvaHost is to offer users an easy, low cost method to exceed the strict confines of shared hosting. One of the most engaging features of this new product is full root access, no matter which tier a user chooses. This allows for personal adjustments including the installation of custom software and network services. All VPS hosting accounts are hosted on Dual or Quad Xeon servers running the Linux operating system, which are well known for offering high performance and dependability.

Everyone who chooses VPS via AvaHost, will be given a [bonus package for webmasters](#) worth more than $1300.00. This includes templates, graphic package, banner templates and a large assortment of quality eBooks with full Resale Rights.

AvaHost has established themselves a strong contender in the web hosting industry, offering topnotch products and prides themselves on excellent customer service. With the launch of the new VPS product, AvaHost proudly states, "We devote ourselves to small to medium businesses and the personal user and with our the introduction of our new VPS we are proud to continue our commitment of offering the best technology at prices everyone can afford, in fact we offer a 60-day Money Back Guarantee so that every client can feel confident in choosing us."
