Industry: [Internet & Online](#)

Convert2xhtml.com has launched their website with new look and 50% off on all PSD to XHTML conversion services.

Convert2xhtml.com offers the high quality PSD to XHTML conversion services at the affordable prices. They offer highly reliable conversion services with the fastest turnaround time in the industry.

Charlotte, USA: Convert2xhtml.com, a provider in PSD to XHTML conversions services, on Monday announced the PSD to XHTML, PSD to XHTML, PSD to Wordpress, PSD to Joomla, PSD to phpBB conversion services for discounted price while launching their new website look.

In very short time convert2xhtml has come up as best quality PSD to XHTML provider. When it comes to integrate PSD design with PHP systems like wordpress, Joomla and phpBB convert2xhtml.com uses the skill set of Einfoway, a company known for PHP work past 9 years.

Many branded companies used to outsource PSD to XHTML or integration jobs to einfoway. So einfoway started its own website convert2xhtml.com with aim to provide highest quality of PSD to HTML or PSD to XHTML service to its customers at lowest price. Many designers and coders lack skill to convert psd to valid XHTML so they outsource to convert2xhtml and they concentrate on their skill set.

Converting PSD or design to valid XHTML or HTML is not an easy job for every one. It takes lots of efforts and special skills to get this job done. Quality does matter as your websites needs to look same with different browsers and search engine friendly.

Till June convert2xhtml.com was providing same service for min \$79 for PSD to XHTML and \$59 for PSD to HTML. Now convert2html has dropped its prices from \$79 to flat \$45 for XHTML/HTML and also reduced the prices of PSD to Wordpress, PSD to Joomla and PSD to phpbb with free 30 days technical support.

There are lots of companies providing PSD to XHTML service, but convert2xhtml stands out of all, for their quality and cost. When customer has to convert many pages from PSD to xhtml going for high cost websites is not affordable when compared to high quality provided by convert2xhtml at lower price. Convert2xhtml.com has added advantage of its PHP expertise from einfoway with solid 9+yrs of exp.
