Soon, Bulgaria will be home to one of Europe's top 3 golf courses, in the form of [Thracian Cliffs Golf and Spa Resort](#), which boasts an 18-hole Gary Player Signature golf course.

At the heart of the luxury mixed-use development is the Gary Player Signature golf course, located on 164-hectares of wild, scenic Black Sea coast terrain, spanning 4.5 kilometres of coastline and bestowing a truly exhilarating golfing experience with stunning sea views.

Mr Player cannot speak highly enough of the course. "I've been designing golf courses for a long time all over the world – in China, India, Africa, America – all over the world. And I must say that I have never seen such a beautiful golf course as this here.

I am certain that it will bring a lot of tourism to [Bulgaria](#) and I am confident that Bulgaria will become a favourite place for holding world class golf tournaments within the next two to three years."

The Golf Clubhouse will offer casual luxury with a comfortable, sophisticated and inviting social atmosphere for golfers and friends.

The facility will include relaxing restaurants, an elegant bar and lounge with fireplaces and terraces overlooking the 18th green and seaside views to the Gary Player Signature golf course.

The Clubhouse will include workout facilities, indoor and outdoor pools with dramatic views in all directions.

Gary Player has the final word, "You will never see a golf course like this anywhere in the world. Never."
