All Slots Casino now allow players to share the wealth with their revolutionary multi-player Wheel of Wealth community slot machine, an industry first.

Microgaming's all new, multi-player Wheel of Wealth community slot machine is making its exclusive, worldwide debut at All Slots Casino. This is the first casino game of its kind to appear on the Internet. The debut period is exclusive for the month of October, giving you one month to get the most out of this exciting opportunity. Online casino players chat while spinning the slot and participate in a shared bonus round. Occupying the same game space, players see each other's results in real time, making this a truly shared gaming experience.

Players who sign up at All Slots can be among the first in the world to play the Wheel of Wealth multi-player community slot game. In fact, the game is currently only available at AllSlots.com.

With Multi-Player Community Slots, you can play the Wheel of Wealth online slot game in the same slots room with other players. You can watch their spins and their winnings, and you can chat with them while you play. Best of all, when one player gets a bonus round, all qualified players get to join in the bonus round. That means you can win money for your buddies, and your buddies can win money for you.

You can play Multi-Player Community Slots with a group of your friends, or you can enter a slots room and make new friends with

online slot players from around the world. Either way, it's a great way to share your online gaming experience with other players.
