Clinique, leader in skin care and make up, has launched its latest colour collection called Black Tie Violets which includes new limited edition make up shades.

From violet berries to rich plums, purple is this season's new red. To celebrate this purple reign of colour, [Clinique](#) has introduced the New Black Tie Violets 2009 colour collection. This sweetly feminine, yet bold line features a range of girly violet tones that mirror the festivity and allure of the season.

A full-face party look draws inspiration from Clinique's best-selling Different Lipstick in A Different Grape and for an extra touch of glamour, key items are elegantly housed in luxurious, silver packaging.

Shimmering Stripes [Blusher](#) leaves a pearly, luminous look in rich plum shades. For application, the limited edition Powder Brush made of natural hair is available with a festive, shimmery, metallic handle especially for Christmas. The large dome allows for easy application of powder for smooth, even delivery. As with all Clinique brushes it utilises a unique anti-bacterial technology that protects the brush to ensure a high level of hygiene. It's the perfect beauty tool to help make the festive season glow.

It's Black Tie
Violets.
And you're
invited.

Colour Surge Eyeshadow Quad creates looks ranging from subtle and soft to a sexy and sophisticated smokey eye. Clinique eyeshadows build quickly and blend easily offering effortless sheen and luminosity. The perfect eye makeup can be finished with Brush-On Cream Liner an ultra smooth, creamy gel liner that provides the precision of a liquid liner enabling it to be laid on thick or thin, subtle or dramatic. Either way, this fast-drying, non-smudging, waterproof eye liner delivers a precise line every time.

Lips are treated to the must-have party lip gloss with Full Potential Lips Plump & Shine. A multi-purpose, high-shine [lip gloss](#) which instantly and over time makes even the most modest lips appear fuller, softer and more contoured. Layered over Clinique's Different Lipstick in A Different Grape or High Impact Lip Colour SPF 15, a sophisticated [lipstick](#) that delivers superior colour and moisturising benefits from the moment it's applied.

Finally the look can be finished with High Impact Mascara to deliver intense, glamorous, dressed-up lashes in a flash.

New Black Tie Violets is available in-store and online at Clinique.co.uk from October 30th 2009.
