GrayGlass www.grayglass.net with over 60 years of experience in the architectural and technical glass fields has spun-off a new company to enter the glass tile industry. GrayGlass recognizing the current economic environment has invested in this new venture to bring style and value to homeowners, builders and remodelers.

Couture Glass is breaking new ground in wall coverings with their remarkably affordable, high style glass tile. Their exquisite large-scale glass tile – Verre Tile has made quite a global impact with tile distributors, architects and designers. Couture Glass debut offerings includes an elegant collection of 3-D large-scale glass tile in sizes ranging from 6"x 12" to 18"x 24" in a palette of 12 colors from subtle to spectacular and numerous dramatic textures which will compliment any room.

Light dances on the surface of the Riche pattern to create a range of hues from the base color. This dynamic tile will reflect a myriad effect at different times of the day based on how light enters the room and strikes the wall.

Vogue will take your breath away with its multi-dimensional depth that incorporates softness, luxury and beauty. A distinctive feature of this tile is its 'movement', which mimics gentle winds caressing sand.

Luxe blankets walls with a gorgeous light-catching bristle effect that glistens and changes color. This eye-catching tile resembles luxurious fur and is a brilliant choice for anyone interested in adorning their walls with elegance.

Feeling reflective? Create the expansion of space while livening up your walls with this modern, versatile mirror tile available in our entire collection of 3-D VerreTile patterns.

This superior quality, TCNA tested, eco-friendly, high style glass tile collection has been created by our design experts with cutting edge tile trends in mind. This combination of style and function will appeal to traditional and modern taste alike. We are extremely sensitive to the current economic times, therefore, we are committed to deliver glass tile with excellent value and durability at a competitive price point that responds to consumer concerns and demands. Private label projects are welcome. Please visit our website to see our stunning collection of glass tile. For more information about Verre Tile by Couture Glass, visit www.coutureglass.com or contact Jennifer Wichard or Chris Vigianno.

Couture Glass is a specialized division of GrayGlass Global Solutions LLC, an allied company of GrayGlass. For 60 + years, GrayGlass has offered the highest quality, reliability and value in the glass industry. We now fabricate high quality glass tile.
