

# Enagic USA, Inc Launches New Kangen Water SD501U Water Filtration Device

Released on: October 28, 2009, 3:38 am

Author: John C. Stevenson

Industry: [Food & Beverage](#)

Enagic, Inc. has recently introduced a brand new water filtration device, the Kangen Water™ model SD501U. Packed with all the same power of Enagic's flagship product, the SD501, this water filtration system can be directly mounted underneath an existing countertop for better storage. For more information please visit <http://www.phdrinkingwater.com>.

The new Kangen Water™ SD501U filtration device comes with a very generous, bumper to bumper five-year warranty and comes with all the standard features available with the high-quality family of ionizers from Enagic USA, Inc. Each device has the ability to create all forms of Kangen Water™, including strong, neutral, acidic and strong acidic. Kangen Water™ is one of the purest [antioxidants](#) one can ingest. With this new under-the-counter device, owners can easily store the unit out of sight while easily accessing the benefits of fresh Kangen Water™. With some simple adjustments to a customer's existing sink a

counter mounted discharge port allows for easy access of the Kangen Water™ SD501U machine. The Enagic, Inc. filtration devices no longer have to sit on a kitchen counter top taking up valuable counter space. Kangen Water™ does not have to be used just for physical consumption either. Many people are using KANGEN water for cooking and bathing and not just for drinking. Cooking with Kangen Water™ has been known to enhance the taste of food and bathing in Kangen Water™ has been known to work wonders on all types of hair and skin conditions. [Kangen Water™](#) has also been known to have amazing rejuvenating powers, helping the body to return to its original healthy state. Chronically ill patients have discovered that Kangen Water™ has aided them in the recovery from many illnesses. Enagic's larger devices have the ability to be used in a restaurant or small-scale food industry settings providing chefs with amazing results. Enagic's water ionizers come with self-cleaning capabilities so that there is no need to dismantle the device in order to clean it.

For more information or to watch a quick video as to how this water's magic really works for everyday people and the benefits that Kangen Water™ filtration machines can bring a person please visit <http://www.phdrinkingwater.com>.
