According to company owner Jim Shelton, "After more than three years of hard work and several set-backs, our program is finally ready for the PEO markets we have been trying to help".

"The mid-market PEO will be able to breathe a refreshing sigh of relief with this program designed specifically for the PEO. In particular, smaller PEOs struggle to keep a workers' comp policy, let alone afford it. Why? Simply put, [workers compensation](#) carriers have attached a negative stigma to PEO's, requiring high collateral, deposits or "fixed" premiums based on an estimated annual premium, hurting the already beleaguered cash flow needed for the PEO's day to day operations. Larger PEOs tie up precious cash flow and credit; that won't happen with PML's program".

PML Risk Management, Inc. is trying to change the relationship between workers comp carriers and the PEOs who honestly and effectively manage their risk.

PML Risk Management, Inc, is not a [professional employer organization](#) (PEO), but the company owner has over 24 years experience as a PEO owner; fully aware of the workers compensation challenges and pitfalls facing the mid-market PEO, as well as the larger PEO.

This unique PEO program will offer qualified and accepted PEOs "Guaranteed Cost" Individual or Master Coordinated policies; all fifty states, No Collateral, little or NO deposit and a monthly reportable Pay-As-You-Go plan.

As an incentive, the program offers the PEO a profit-sharing dividend for keeping their loss ratio 40% or less.

This program is the competitive blast of fresh air PEOs have been looking for.
