Here's what grandmother and teacher Mary Jane McKinsey says about Bunny Bear. "I so much enjoyed listening to Bunny Bear's Adventures in Diversity Land. I think that if I were a young child who has just moved to a new country, I would love to hear the adventures and the difficulties and the homesickness and the fun of a person like Deborah Levine. Your experiences in moving to the United States from Bermuda are so heartwarming and sad and

happy, all in one little girl's life.”

Don't miss this special holiday opportunity! Mary Jane wants you to know, “I would highly recommend your CD to any child who is the new child on the block. You make one feel that anything is possible in a new situation. And your voice would make any child feel as if you are talking to just him.”
