Industry: [Healthcare](#)

[Malibu, CA] - Sunset Malibu, an exclusive treatment center on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in helping clients heal themselves from the inside-out.

[Addiction recovery](#) isn't a spectator sport. On the contrary, drug abuse is a personal disease, and drug treatment must be driven by personal effort. The best drug rehabs are those which empower their clients, by helping them develop the strength they'll need to stay sober over the long run. In the end, there's simply no other way build a foundation for lasting wellness.

Those considerations, in turn, are at the heart of Sunset Malibu's treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The center has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing care to individuals who seek it. At Sunset Malibu, the client always comes first.

"Drug rehabs can't force their clients to get better," said Sunset Malibu's Clinical Team. "The best they can do is to facilitate the healing process, by ensuring that their residents have all the support they need as they confront their demons. At Sunset Malibu, our exclusive rehab programs are designed to do exactly that."

Unfortunately, that passion for patient-driven healing is precisely what sets Sunset apart from its competitors.

Every rehab center pays lip service to the importance of empowerment. But only a handful of institutions live up to their own standards. In fact, many of the most high-priced drug rehabs in Los Angeles do very little to help clients develop the self-esteem and self-control that are so vital to long-term recovery. More often than not, these clinics fall short of the goals they set for themselves and their patients.

Under the circumstances, those shortcomings are inexcusable.

"Our clients trust us to save their lives," the Clinical Team at Sunset Malibu says. "At Sunset Malibu, we're keenly aware of the stakes, and we do everything in our power to ensure the success of the healing process. To do anything less would be both unprofessional and immoral."

Addiction is a devastating disease. The good news here is that addiction treatment really can help to solve the problem. The expert caregivers at Sunset Malibu have a long record of supporting clients on the road to recovery. The only question that remains is whether addiction victims in California and around the world will be wise enough to learn the truth on their own terms.
