California, December, 2009 – Balsam Hill® has been the leader in the Artificial Christmas trees industry for years. The company's wide variety of trees offers opportunities to meet virtually any taste. Balsam Hill® has various categories of trees, with each in numerous sizes. Additionally, the company offers its White Denali, which provides new decorating potentials. Balsam Hill® Artificial Christmas trees were featured on Good Morning America and received raving reviews. From the more traditional look of [Artificial Christmas trees](#) to monochrome look, or the use of a select color or two in the Artificial Christmas Trees Decorations, Balsam Hill® has a tree that is perfect for that particular decorating design.

Balsam Hill® is decades ahead of other manufacturers of Artificial Christmas trees. This company has gone to great efforts to insure that its products are of high quality and that they will meet the customers' expectations. The mission of Balsam Hill® is proudly displayed on the company website, in part, it reads: " Balsam Hill's mission is to create the most realistic Artificial Christmas trees, Christmas wreaths and Christmas garlands ever produced."

Artificial Christmas trees by Balsam Hill® are based on natural evergreen species, which provides a stunning and authentic lifelike texture, profile, and coloring. Additionally, the foliage of the evergreens is created via True Needle™ technology, which is an innovative process that allows natural colorization of the needles.

Artificial Christmas Trees Multi Lights are also available. The company offers pre-strung lights in clear, multicolored, and color plus clear, which allows the user to choose between clear or multicolored lights with the touch of a remote. All of the products created by Balsam Hill® are done so with the ideas of convenience and quality.

The Artificial Christmas trees are designed with hinged branches that sit atop a lightweight, stand. To make setup, take down, and storage easy, the stand is collapsible. The Instant Evergreen Trees are designed to be super easy to assemble. In essence the assembly is simply pulling up the tree and the set up takes five minutes or less.

Balsam Hill® is even progressive when it comes to Artificial Christmas Trees Decorations. The company offers over 20 different styles of pre-lit Artificial Christmas trees, pre-lit Christmas wreaths, and pre-lit Christmas garlands, making it possible to satisfy virtually any holiday style or theme. The company also offers exquisite Artificial Christmas Trees Decorations, ornaments and skirts to adorn the trees, which makes shopping easy and convenient.

Each year Balsam Hill® presents something new to add to the arsenal of Christmas decorations. This innovative company is never standing still as it continues to find new ways to create even better Artificial Christmas trees.

Balsam Hill® has established a reputation built on quality and integrity. This company is known as the leader in the industry of [Artificial Christmas trees](#). The standards set by Balsam Hill® are high, but it is the mission determined by the company that is its driving force. In accordance with that mission the company works continuously to produce realistic Artificial Christmas trees and high quality [Artificial Christmas Trees Ornaments](#), all of which are convenient to use and store.
