Center Parcs are delighted to announce that they have achieved Visit Britain's 5-star rating for all 4 sites. Following visits from independent assessors in September and October 2009, Visit Britain reported impressive results.

Assessors noted excellent levels of service across all areas and exceptional standards of cleanliness were also recognised.

Visit Britain's quality assessment scheme seeks to inform consumers of the quality of service and facilities they can expect from accommodation in the UK; the 5 star rating recognises an 'exceptional standard, with a degree of luxury'.

The Visit Britain Resort Spa Accreditation has also been awarded to Aqua Sana for performing above standards that comply with the Waves of Excellence criteria. Accreditation is based on quality of

service, ambiance, satisfaction with therapies and treatments, value for money, professionalism of staff and range of services available.

Graham White, Operations Director said:

“We are proud to have been again awarded 5 stars by Visit Britain under their quality in tourism scheme and the Resort Spa Accreditation. These are superb achievements and it is down to the dedication and enthusiasm of all colleagues at Center Parcs that we have received these ratings. Excellent service and a wide range of high quality facilities are a fundamental part of the Center Parcs experience and this is what has made us so successful for the past 20 years.”
