Industry: [Electronics](#)

ELP is a professional CCTV surveillance equipment manufacturer and exporter. ELP has a large number of inventory ready to transport, these products contain DVR cards <http://www.elpcctv.com/video-capture-card-c-47.html>, standalone DVR, CCTV cameras, CCTV accessories.

Video Capture Card, DVR Card,
GV-1480 (Ver8.2) GV Card

ELP's new products are particularly suitable for some high-functional projects. Three-dimensional axis dome camera with zoom lens can rotate 360 degrees left to right and rotate up and down 90 degrees. It can be used day and night and is also waterproof and vandal-proof. It is a unique new camera with high quality and beautiful style. It is good choice for high-grade projects. There are also long-distance infrared cameras, with infrared distance range from 20M, 30M, 40M, 80 meters to 100 meters, which also contain IR LED long distance zoom cameras and other special products; not only do they take all the features of

ordinary infrared camera, you can enlarge or shrink the screen. There are many small low-resolution cameras, but the 540TVL high-definition mini-camera on the market is rare. ELP is also a company specializing in the production of a new high-definition 540 miniature camera. In addition, small SD card mobile DVR with GPS function is also a major feature of ELP's products.

ELP can also produce OEM security and surveillance equipments in accordance with customers' requirements, such as analog CCTV cameras, security cameras, IP cameras, wireless cameras, DVR cards, embedded DVR, CCTV lens, CCTV accessories and so on.

With many years of steady development, ELP has become a medium-sized company, with nearly 100 employees. At the same time there are 20 professional and technical personnel of the R & D team to ensure product quality and innovation. All ELP's products have at least a one year warranty.
