A Perfect Pout Peels Back the Years

Released on: January 13, 2010, 5:16 am

Author: The Hospital Group

Industry: <u>Healthcare</u>

From studying the faces of over 250 women, including sets of twins, analysts's found that even if a woman's skin gains wrinkles, eye bags and sagging jowels, having a fuller set of lips can take years off of your face.

Seductive lips are one of the strongest signals of a woman's sexual and youthful allure, with Angelina Jolie's enviable pout voted as the most desirable in the world.

Sadly, scientists have discovered that there is little women can do naturally to keep the youthful appearance of their lips. Thanks mainly to genetics pouts start getting thinner between the age of 30 and 40.

The Hospital Group, the UK's leading cosmetic surgery provider, performs many agedefying treatments at its clinics including non surgical dermal fillers which can create a subtle, more youthful pout.

As well as non-surgical procedures, The Hospital Group performs other anti-ageing surgical treatments such as face and brow lifts. Other plastic surgery procedures offered include eyebag removal, eye-lid surgery, rhinoplasty, otoplasty and breast uplifts.

Since The Hospital Group was established in 1992, it has risen to become the UK's biggest weight loss surgery provider, performing more gastric procedures last year than the NHS. The Hospital Group is committed to providing the very highest standards and all procedures are performed by an expert medical team in state-of-the-art facilities that are second to none.

For further information of The Hospital Group's range of cosmetic procedures, surgery-seekers should visit the website www.thehospitalgroup.org or call our patient care coordinators on 0845 762 6727.
