[Malibu, CA] - Sunset Malibu, an elite drug treatment center on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in helping clients regain their dignity on the road to wellness.

Drug addiction is a psychologically crippling disease. By the same token, [drug treatment](#) must promote psychological renewal. The most effective drug treatment centers are invariably those which help clients learn to feel good about themselves again. In the end, there's no other way to ensure the long-term success of the healing process.

Those considerations, in turn, comprise the core of Sunset Malibu's treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The center has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing care to individuals who seek it. At Sunset Malibu, the client always comes first.

"Substance abuse strips its victims of their self-esteem, and their sense of self-control," said Sunset Malibu's Program Director. "It's our role as a drug treatment center to help them recover what's been lost, with everything from professional depression treatment to intensive life-skills training. We believe that our long record of success testifies to the soundness of our strategies."

Sunset's competitors, on the other hand, would be hard-pressed to speak so highly of their own treatment programs.

It's easy for a drug treatment center to say it cares about the psychological well-being of its clients. It's harder for that clinic to actually translate its words into action. The unfortunate truth is that many of the most heavily-advertised drug treatment centers in California offer inferior emotional therapy to their clients. More often than not, these institutions fail to promote meaningful and lasting recovery.

Sunset Malibu's Clinical Team, for their part, argues that those shortcomings are inexcusable.

"The stakes in the fight against addiction are enormous," Sunset Malibu's Program Director said. "Our clients trust us to save their lives, and we're deeply committed to meeting our obligations. A drug treatment center that can't or won't live up to its responsibilities doesn't deserve to be in business."

It's no secret that drug abuse ruins the lives of its victims. What might not be so obvious is that successful drug treatment can make all the difference in the world. Sunset Malibu has a long history of helping its clients heal from the inside-out. As those clients have learned firsthand, no project could ever be more worthwhile than that one.
