Industry: [Software](#)

MobiJobber.com is the first and only job board specifically created for the mobile application industry. Unlike Monster, Dice and HotJobs.com, MobiJobber.com will connect employers with developers who have a broad range of skill sets in addition to specific skills in the development of [mobile applications](#). The 2009 Juniper Research Report states that "both direct and indirect revenues from mobile applications

are expected to exceed \$25bn by 2014, with growth fueled by a raft of store launches targeting both high-end and mass-market handsets and Enterprise and legacy integration applications development". MobiJobber.com was designed for the specific needs of employers and mobile application developers. Both employers and candidates can post jobs and resumes, perform targeted searches specific to mobile application development while specifying location, type of employment, skillset and other search criteria.

For recruiters and employers, MobiJobber.com provides specific tools and resources to help human resource managers improve the effectiveness of their [recruitment](#) processes. The MobiJobber.com resume database enables customers to quickly and efficiently search for candidates with specialized skills that match their mobile

application requirements. Due to MobiJobber.com's exclusive focus on the mobile application industry, our customers can find results faster and easier than on other, less targeted services.

For mobile application developers, MobiJobber.com provides the tools [job seekers](#) need to search, assess and evaluate potential employers and help them identify the opportunities that best fits their career goals. MobiJobber.com career search services and networking tools enable job seekers, recruiters and employers to create targeted connections across thousands of online communities. MobiJobber.com delivers a one-of-a-kind recruitment solution that provides the targeted exposure of a specialized job board. Visit us at www.mobijobber.com
