

# Cinema Paradiso Helps Parents Survive the School Holidays

Released on: March 17, 2010, 7:33 am

Author: [Cinema Paradiso](#)

Industry: [Consumer Services](#), [Entertainment](#)

Every parent dreads the cry of 'I'm Bored!' Keeping kids entertained during the school holidays can be tricky not to mention expensive, especially if the weather is unkind. One option is to buy some new DVD's for the kids to watch, but the trouble is that once a film has been watched is quickly gets put on the shelf and forgotten about.

The solution to this is finding a good quality [DVD rental](#) service. This enables you to have access to a massive DVD library containing the very latest releases. Cinema Paradiso is offering a great deal on rental DVDs that is sure to keep kids entertained.

Parents can sign up with Cinema Paradiso and get access to the very latest films on DVD and Blu-Ray. Subscriptions allow differing amounts of simultaneous rentals and range from 2 a month to an unlimited number.

Kids love the surprise of seeing which film arrives in the post. Parents can hire the latest releases such as Up through to classics like Snow White.

Cinema Paradiso knows the fun of renting a great children's film doesn't stop when the film ends. There are lots of ways parents can use a good film to encourage creative play. After watching a film children can:

- Draw or paint a picture of their favourite character.
- Make a costume and dress up as one of the characters.

- Act out scenes from the movie.
- Make models based in the film.
- Cook food featured in the film. (Who could resist cooking ratatouille after watching the Disney film Ratatouille?)
- Try drawing their own cartoon characters.
- Sing the songs from the movie.

For older children films are a sneaky way to introduce them to famous authors such as Dickens, Austen and Shakespeare. Many teenagers find English Literature boring, but watching a great film adaptation can really spark their interest.

Teenagers will enjoy having friend round to watch a blockbuster movie. Cinema Paradiso has an excellent range of Blu-ray and DVDs for the ultimate movie experience.

Cinema Paradiso has much more to offer than just blockbuster films. The whole family can join in with interactive DVDs such as the X Factor DVD game. Parents can also browse through the collection of documentaries. Children with inquisitive minds can learn if chilli powder really repels sharks in 'Mythbusters: Jaws Special'. Cinema Paradiso's rental DVDs also include guitar, drumming and dance tutorials. There are also sport and music rental DVDs available.

So sign up for a Cinema Paradiso [DVD rentals](#) service today and get ready for the school holidays. Unused DVD rentals roll over to the following month with Cinema Paradiso and there is always a free trial available so you can see how well the service works.
