

# MevsInc Launches Their Website to Provide Local Insurance Quotes

Released on: December 10, 2008, 5:54 am

Press Release Author: Grigoriy Anoshenko

Industry: [Financial](#)

**Press Release Summary: MevsInc, located online at [mevsinc.com](#), recently launched their online insurance website to assist more customers in obtaining help with their insurance quotes.**

Press Release Body: Customers who use the **MevsInc** service are now able to complete a short application process 24-hours a day, 7 days a week in order to get the cheapest insurance quotes.

Unlike other websites that use nationwide services to fill customer insurance requests, MevsInc.com aims to provide its users with results from insurance companies that the individual can meet with face-to-face.

**Founder of the MevsInc.com, Grigoriy Anoshenko** stated, *"Unlike other services that provide a 1-800 phone number and a website for customers to contact, we provide a local address, a local phone number and even driving directions if they are needed."*

The decision to go online with the website has allowed the **MevsInc** company to extend its normal operation hours to

accommodate clients that required services beyond the standard 9-5 Eastern Standard Time operating hours.

The **MevsInc.com** website covers most insurance types with [auto insurance](#), [life insurance](#), [health insurance](#), and [home insurance](#) being at the forefront of their services. Users simply enter their zip code and fill in a short survey based on the type of insurance they are interested in purchasing.

[Auto insurance quotes](#) are available on any vehicle type and rate comparisons are provided to make sure customers receive the best rates locally. In addition, all insurance types (auto, home, life and health) provide discounts that have been established through exclusive partnership programs between MevsInc.com and local representatives.

The website includes a Frequently Asked Questions (FAQ) section which points out not only the positives of [insurance services](#) but also the negatives. In addition, customers with questions are encouraged to contact the MevsInc customer service department for clarification of terms and offerings.

In the end, it is the customer who wins, both by receiving excellent rates on insurance and by being able to invest their resources locally with insurance companies that share the common goals of success with the customer.
