[Malibu, CA] - Cliffside Malibu, a prestigious recovery facility on the Malibu coast, has long been a leading light in the California treatment community. Now, the center is pleased to announce its renewed commitment to helping clients heal on their own terms and under their own power.

Addiction is a personal problem. By the same token, addiction recovery must be driven by personal effort. The most successful [California drug rehabs](#) are those which help their clients develop the self-control and self-esteem they'll need to overcome their substance dependencies. In the end, there's simply no other foundation for meaningful and lasting wellness.

Those principles, in turn, are the bedrock of Cliffside Malibu's treatment philosophy.

With its expert caregivers and posh amenities, Cliffside Malibu is a world-class institution. The center has always catered to an elite clientele. Now Cliffside is expanding its mission, with the goal of delivering the best care on the planet to those individuals who need it. At Cliffside Malibu, nothing less than excellence will ever be acceptable.

"Rehab can't be a passive process," said Cliffside Malibu's Program Director. "It's our role as a rehab center to provide clients with the support they need to heal themselves from the inside-out. We believe that our long record of success proves the effectiveness of our methods."

Unfortunately, that passion for personal empowerment is precisely what distinguishes Cliffside from its competitors.

It's easy for California drug rehabs to pay lip service to the importance of patient-driven recovery. It's harder for California drug rehabs to translate its rhetoric into action. In fact, many of the most well-known California drug rehabs deprive their patients of an active role in the healing process. More often than not, those patients fall far short of the goals their caregivers set for them.

For recovery patients and their families, say Cliffside administrators, that sort of failure is unacceptable.

"There are no second chances in the fight against addiction," said Cliffside's Clinical Director. "You either win the battle the first time or you pay an unspeakable price. At Cliffside Malibu, we understand exactly what's at stake for our clients, and we stop at nothing to ensure that they have all the support they need to get sober on their own terms."

Addiction treatment is a tremendously delicate process. To be successful, it has to be administered the right way, by people who understand exactly how recovery happens. Cliffside Malibu's clinical psychologists and licensed clinical social workers are leading figures in their respective fields. As Cliffside's successful graduates have learned firsthand, that sort of expertise can make all the difference in the world.
